2022

DEAR CUSTOMER,

you are opening a new product catalog from YATE, which is again slightly larger than the previous one.

In this difficult time, when the rules of the game are changing for both the manufacturers and the customers, we did not compromise on our demands for quality, nor have we slowed down the pace of expanding our range of goods. At the same time, we do our best to offer our products in sufficient quantities and try to respond quickly to your orders, which is often not easy at all during this period.

In the leading position of our outdoor innovations is a new model of ultralight tent for 1 person YATE Light One. Great for hiking and expedition cycling.

We have completely redesigned our range of telescopic and folding poles, we are expanding our winter range with another model of YATE Raptor snowshoes with a heel lift. We expect great performance and durability from new crampons YATE Fast Trail, even at their very low weight. The offer of our cookers is also completely new.

In the fitness collection, we are expanding the offer of premium mats for yoga exercises with new designs of natural rubber models. We added another colour to the popular model YATE Fitness Super Elastic. Among other innovations we have YATE Fitness NBR exercise mats with eyelet for hanging and new Tatami EVA with a thickness of 4 cm.

In addition to our YATE brand products, we also represent several other manufacturers of outdoor equipment on the Czech market. In long-term cooperation we continue with TREKMATES and HIGHLANDER. These island producers know how to fight with bad weather.

We have also successfully included new brands, that have already managed to attract the attention of our customers and have already built up a very good reputation on the Czech market. MAM, Portuguese manufacturer of folding knives, MUND socks from Spain, German HEY SPORT, producer of clothing cleaning and maintenance products and SPORT LAVIT functional cosmetics for sport activities.

There is definitely a lot to choose from. In addition, we are already preparing a few other innovations as a surprise for you.

EXPLANATION OF PICTOGRAMS

A product recommended for hiking and climbing. Tested in mountains. It offers an extra-ordinary quality of material and lower weight. Also suitable for hiking.

A product recommended for trekking. Its quality meets the requirements for a few days long trips.

A product recommended for camping.

R-Value - THERMAL RESISTANCE is a physical value describing thermal-insulating properties of material. It is directly proportional to the thickness of material and inversely proportional to its thermal conductance λ . With the maximum value of thermal resistance R the thickness of material is also maximal and its thermal conductance is minimal. Thermal resistance R describes the resistance of 1m² of material against the flow of heat energy when the temperature difference is 1K. Thermal conductance λ describes the conductive property of material. It is the amount of energy (in Watts) that flows through one-meter thick layer of material when the temperature difference between the outer and inner surfaces is 1K. Explanatory note: $R = d / \lambda$ (m²·K·W⁻¹) • d- thickness of material • λ – coefficient thermal conductance (W·m⁻¹·K⁻¹)

MB – ANTI – SLIP SURFACE „YATE MICRO BRUSHED“

As it happens you never find a perfectly flat place for sleeping. It means that lying in a sleeping bag you will slip down even from a comfortable camping mat. That is why we have developed a special surface - Yate Micro Brushed – which increases the friction and prevents the sleeping bag from slipping down. It is used with most of our models.

YATE STRETCH

Our holiday mat is like your bed. The most comfortable models TREKKER STRETCH and CAMPING use the stretch surface that offers the same comfort like a high quality mattress. Your spine remains straight even when the mat is inflated at its maximum.

WARM ZONE

The lightweight core models with the horizontal and vertical canals may have limited insulation properties. Some models use WARM ZONE (with the horizontal canals only) which improves the insulation properties in the most sensitive area between the shoulder blades and waist.

DURING PACKING IS FOLDED IN HALF

TYPES OF VALVES FOR MATS

VALVE REVERSE

A unique user-friendly valve without screwing. It contains a reverse membrane to prevent air leakage while inflating. By turning the valve the membrane prevents the air from returning back while deflating. The upper cap perfectly seals the valve and helps it stay clean. The bigger diameter makes for 50% faster inflating or deflating.

VALVE PUSH IN

Made from high quality plastic (ABS). Comfortable and easy inflating, easy to control (no screwing). To open the vent –turn it left and pull. To close the vent – push it and turn right.

VALVE FLAT

This type of valve is used with models SCOUT, NOMAD and VOYAGER. It makes inflation and closing easy. By pulling the lid, the valve opens – by pushing it, the valve closes. When deflating, it is necessary to open the valve and unlock the check valve with your finger. To replace a pump, the inflation bag has been especially developed for this vent. It makes for the fast inflation of the mat, and you will avoid breathing in wet air from your lungs.

4 YEAR WARRANTY

Our self-inflating mats are, without exaggeration, one of the best in the world. This symbol means, that we offer our customers an extended 4 year warranty. We stand for their quality.

PACKED	*****	****	**	*****	*****	***	**

HAVE YOU EVER WONDERED WHY AN INFLATABLE MAT INSULATES MUCH LESS THAN A SELF-INFLATABLE OR A FOAM ONE? THE AIR MOLECULES IN AN INFLATABLE MAT MOVE FREELY AROUND BUT BY HITTING THE COLD GROUND THEY LOSE ENERGY AND IT MAKES YOU FEEL COLD. THIS IS THE REASON WHY THE PRODUCERS INSERT AT LEAST A FEW MILLIMETRES THICK FOAM LAYER INSIDE SOME INFLATABLE MATS SO THAT THEY WOULD OFFER BETTER INSULATION PROPERTIES.

SELF-INFLATING MATS

ALPIN

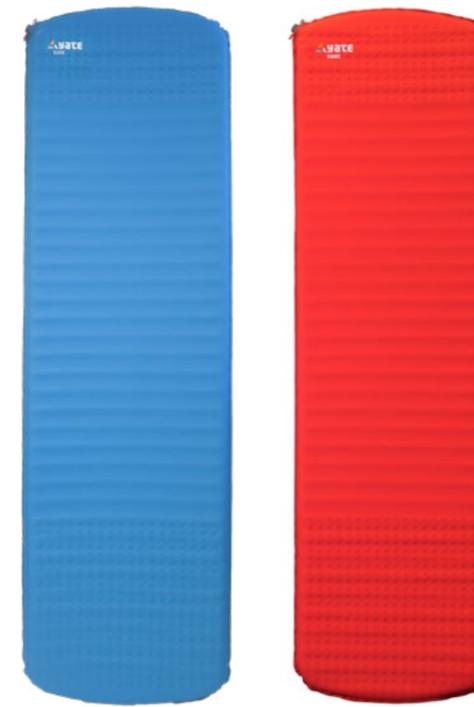

The lightest selfinflating mat. This model utilises the latest materials to reach the lowest weight and volume when packed. By combining the new surface and core materials the weight has been reduced to mere 620g! At the same time the mat retains the maximum comfort and excellent insulation properties. REVERSE valve allows for faster inflating or deflating. ALPIN is designed for hiking and climbing, and it should be used in a tent or in places where its surface will not get easily damaged.

CATALOG NO.	SC00138
MATERIAL	Polyester 20 D
MICROBRUSHED	NO
COLOUR	Blue / grey
DIMENSION	183 x 51 x 3,8 cm
PACKED	14 x 26 cm
WEIGHT	620 g
THERMAL RESISTANCE	4,0

GUIDE

BESTSELLER

To date, our most popular model thanks to its lightweight, resilient material and lightweight core with WARM ZONE. The mat still offers maximum area possible to rest on as well as the thickness of 3.8cm. Optimal for hiking and climbing. The mat gained prestigious Czech Outdoor Award.

CATALOG NO.	SC00136	SC00200

COLOUR	Blue / grey	Red / grey
DIMENSION	183 x 51 x 3,8 cm	183 x 51 x 3,8 cm
PACKED	14 x 26 cm	14 x 26 cm
WEIGHT	650 g	650 g
THERMAL RESISTANCE	4,0	4,0

TREKKER

BESTSELLER

Very popular model with outstanding qualities of material and production details. The material is highly resistant to any damage. The anti-slip surface will prevent you from slipping down from the mat.

CATALOG NO.	M01650
MATERIAL	Polyester Microbrushed 75 D
MICROBRUSHED	YES
COLOUR	Blue / grey
DIMENSION	183 x 51 x 3,8 cm
PACKED	14 x 26 cm
WEIGHT	850 g
THERMAL RESISTANCE	4,0

TREKKER STRETCH

Do you like sleeping rough outdoors but roots and bumps make your back hurt? If so, then this is an ideal mat for you! The stretchy material helps to compensate for the uneven surface and most importantly it adjusts itself to your body. Your spine keeps lying in a straight horizontal position and you feel relaxed in the morning. At the same time, the material prevents you from sliding down. The inner foam has horizontal canals so the mat insulates evenly all over its surface.

CATALOG NO.	SC00180
MATERIAL	Polyester stretch 50 D
MICROBRUSHED	NO
COLOUR	Blue / grey
DIMENSION	183 x 51 x 3,8 cm
PACKED	14 x 26 cm
WEIGHT	830 g
THERMAL RESISTANCE	4,0

TREKKER LONG

Are you a rather taller guy? Or do you prefer a bigger place for sleeping? This longer and wider version of TREKKER gives you huge space and tons of comfort also due to the anti-slip material. The inner foam has horizontal canals so the mat insulates evenly all over its surface.

CATALOG NO.	SC00020
MATERIAL	Polyester Microbrushed 75 D
MICROBRUSHED	YES
COLOUR	Blue / grey
DIMENSION	198 x 60 x 3,8 cm
PACKED	15 x 34 cm
WEIGHT	1120 g
THERMAL RESISTANCE	4,0

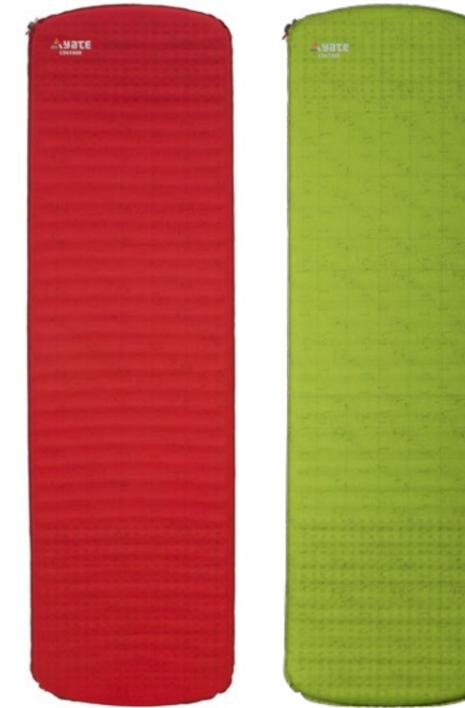

TREKKER SHORT

A shorter version for the medium-build guys. Also, for those who spare backpack-weight and who don't want to give up on comfortable sleep and excellent insulation.

CATALOG NO.	SC00028
MATERIAL	Polyester Microbrushed 75 D
MICROBRUSHED	YES
COLOUR	Blue / grey
DIMENSION	183 x 51 x 3,8 cm
PACKED	14 x 26 cm
WEIGHT	850 g
THERMAL RESISTANCE	4,0

CONTOUR

CONTOUR offers identical parameters like TREKKER, but its surface material 75D uses a contour line pattern. The quality of material and processing is as outstanding as with TREKKER. The surface is resilient with considerably anti-slip properties.

CATALOG NO.	SC00081	SC00190

MICROBRUSHED	NO	NO
COLOUR	Green	Blue
DIMENSION	182 x 51 x 3,5 cm	182 x 51 x 3,5 cm
PACKED	22 x 26 cm	22 x 26 cm
WEIGHT	950 g	950 g
THERMAL RESISTANCE	3,8	3,8

COMFORT

A comfortable camping mat which uses the stretch surface. This surface copies the curves of your body and therefore can be as good as an airbed. Sleeping in a tent will make you feel like sleeping at home. It is also suitable as a make-shift bed for your visitors.

CATALOG NO.	SC00191
MATERIAL	Polyester stretch 50 D
MICROBRUSHED	NO
COLOUR	Blue / grey
DIMENSION	198 x 66 x 5 cm
PACKED	18 x 66 cm
WEIGHT	1500 g
THERMAL RESISTANCE	5,3

CAMPING

A comfortable camping mat which uses the stretch surface. This surface copies the curves of your body and therefore can be as good as an airbed. Sleeping in a tent will make you feel like sleeping at home. It is also suitable as a make-shift bed for your visitors.

CATALOG NO.	SC00021
MATERIAL	Polyester stretch 50 D
MICROBRUSHED	NO
COLOUR	Blue / grey
DIMENSION	198 x 66 x 7,5 cm
PACKED	20 x 66 cm
WEIGHT	1780 g
THERMAL RESISTANCE	8,5

NOMAD

An inflatable airbed with the transverse chambers and inner insulation. Thanks to its bigger size and low weight it is an ideal bed for camping or hiking in the mountains. FLAT VALVE and the inflation bag, included in the package, make for a faster inflation and better insulation because the wet air from your lungs won't get in.

CATALOG NO.	SC00203
MATERIAL	Nylon 20 D
COLOUR	Red / grey
DIMENSION	193 x 58 x 9 cm
PACKED	10 x 30 cm
WEIGHT	590 g
THERMAL RESISTANCE	2,1

VOYAGER

A luxurious model of an inflatable airbed with separated chambers and stretch surface preserves the properties of a bed-mattress, but it is low weight with a minimal pack-size. FLAT VALVE and the inflation bag, included in the package, make for the faster inflation and better insulation because the wet air from your lungs won't get in.

CATALOG NO.	SC00237
MATERIAL	Polyester 75 D
COLOUR	Petrol / grey
DIMENSION	195 x 66 x 9 cm
PACKED	14 x 26 cm
WEIGHT	1250 g
THERMAL RESISTANCE	3,3

SCOUT

Ultra light inflatable mattresses with separated chambers for better comfort and insulation. They prevent the air from moving from place to place, which means that the insulation properties are better. The mattress adjusts to the shape of your body. A unique valve helps with faster inflation and deflation.

CATALOG NO.	SC00201	SC00236
MATERIAL	Nylon 20 D	Nylon 20 D
COLOUR	Grey	Petrol
DIMENSION	185 x 55 x 5,5 cm	185 x 55 x 5,5 cm
PACKED	10 x 23 cm	10 x 23 cm
WEIGHT	400 g	400 g
THERMAL RESISTANCE	1,2	1,2

INFLATABLE MAT WITH INSULATION

An inflatable mat with the inner insulation is designed for both tourism and cycling as well as for climbing and hiking. The inner surface of each tube is coated with 8 mm layer of PU foam which prevents the heat loss. Should you want to avoid inflating it with your mouth, then you can use a hand air-pump (Cat. no. SC00064), a water-proof sack with an air-pump (Cat. no. M02104) or an air-pump with a valve for inflating (Cat. no. SC00008).

CATALOG NO.	SC00063
MATERIAL	Polyester 75 D
COLOUR	Blue / grey
DIMENSION	183 x 50 x 7 cm
PACKED	10 x 27 cm
WEIGHT	590 g
THERMAL RESISTANCE	3,1

INFLATABLE MAT

An inflatable mat offers an excellent comfort and it is suitable for tourism and cycling. Should you want to avoid inflating it with your mouth, then you can use a hand air-pump (Cat. no. SC00064), a water-proof sack with an air-pump (Cat. no. M02104) or an air-pump with a valve for inflating (Cat. no. SC00008).

CATALOG NO.	SC00239
MATERIAL	Polyester 75 D
COLOUR	Red / grey
DIMENSION	183 x 50 x 7 cm
PACKED	9 x 27 cm
WEIGHT	500 g
THERMAL RESISTANCE	2,4

INFLATABLE MAT WITH BUILT - IN PUMP

A mat with a unique built-in pump for easy inflating. Should you want to avoid inflating it with your mouth, then you can use a hand air-pump (Cat. no. SC00064), a water-proof sack with an air-pump (Cat. no. M02104) or an air-pump with a valve for inflating (Cat. no. SC00008).

CATALOG NO.	M01905
MATERIAL	Polyester 75 D
COLOUR	Grey
DIMENSION	183 x 50 x 7 cm
PACKED	9 x 27 cm
WEIGHT	500 g
THERMAL RESISTANCE	2,4

INFLATION BAG

A special bag is used for inflating of Nomad, Voyager and Scout models. The output in the lower part of the bag must be locked into a valve of the mat. The air is pushed inside the mat by rolling up the bag. The main advantage this bag gives you is the faster inflation, and at the same time you will avoid breathing in the wet air from your lungs. The bag is included in Nomad and Voyager package.

CATALOG NO.	SC00205
DIMENSION	67 x 44 cm
VOLUME	25 l
WEIGHT	70 g

HAND AIR-PUMP MADE OF PU FOAM

A foot or hand operated pump is easy to use for both adults and children. No further mouth inflating is necessary. No mouth wetness inside the tubes.

CATALOG NO.	SC00064
MATERIAL	Polyester 75 D, PU foam
COLOUR	Green, blue, red
DIMENSION	23 x 15 x 7 cm
PACKED	9 x 9 x 8 cm
WEIGHT	70 g

PACKSACK - PUMP WATERPROOF

A hand operated pump is easy to use for both adults and children. No further mouth inflating is necessary. No mouth wetness inside the tubes. The pump is suitable for all models of self-inflatable and inflatable mats with PUSH-IN and REVERSE valve.

CATALOG NO.	M02104
DIMENSION	Ø15 x 60 cm
VOLUME	5 l
WEIGHT	75 g

REDUCTION FOR INFLATING

A tube with a check valve to make inflating and deflating easier. It can be used with hand air pump to inflate Inflatable mats. This head is suitable for all models of the self-inflatable and inflatable mats with PUSH-IN and REVERSE valve.

CATALOG NO.	SC00008
COLOUR	Grey
DIMENSION	4 x 2,5 cm
WEIGHT	10 g

REPAIR KIT

A kit for professional and emergency repairs of punctured mats contains a glue and 2 big size patches.

CATALOG NO.	M01920
COLOUR	Blue, grey
DIMENSION	10 x 7 cm
WEIGHT	10 g

PILLOWS

FOAM PILLOW

SELF-INFLATING – 50 x 32 x 15 cm

NEW

A self-inflating cushion made of soft feel material is a pleasant companion on your travels. It is light and space saving. The dimensions correspond to a medium inflation.

CATALOG NO.	SC00269
COLOUR	Blue
DIMENSION	50 x 32 x 15 cm
PACKED	Ø7 x 28 cm
WEIGHT	250 g

AIR PILLOW

INFLATING – 50 x 31 x 8 cm

NEW

A lightweight inflatable pillow with a soft surface will make you feel at home on the road. The one-way vent makes for easy inflation and deflation.

CATALOG NO.	SC00270
COLOUR	Blue
DIMENSION	50 x 31 x 8 cm
PACKED	Ø7 x 11 cm
WEIGHT	150 g

PILLOW CLIPS

NEW

Sure, you don't want your pillow to slide down the mat? Fix it in the proper position with the pillow clips. The small, lightweight package contains two pairs of clips with a cord to hold them together. The cord length is adjustable.

CATALOG NO.	SD00021
COLOUR	Black
WEIGHT	10 g

PILLOW

SELF-INFLATING – 40 x 28 x 8 cm

The pillows are made of soft stretch material filled with granulated PU foam. Wide range of colour combinations.

CATALOG NO.	M02040
COLOUR	Blue
DIMENSION	40 x 28 x 8 cm
PACKED	Ø7 x 28 cm
WEIGHT	200 g

BRISI
25 L - BLUE

BRISI
25 L - GREEN

BRISI
30 L - BLACK

A practical and modern backpack made of waterproof material is ideal for everyday use in a town or for outdoor trips. Its roll-up lid is equipped with a magnetic bar which allows you to adjust the size of the backpack according to the volume of belongings you carry. This system also protects your stuff against robbery and keeps it dry. A separate inner pocket for a notebook or tablet is accessible from the top as well as from the zipped side. The earphones can be plugged in through a small hole on the other side of this pocket. Inside, there is another pocket for documents, and on the outside, two more zipped pockets. Thanks to the ergonomic straps and reinforced back-support system this backpack is very easy to carry.

SUMMIT

25 L

Inspired by mountain adventures, the Summit is well prepared to tackle any challenge. Its air vented back system encourages airflow across your back, allowing moisture to evaporate quickly. When you need to separate wet and dry kit, an internal divider creates two compartments within the main pocket. This bag is compact, yet still provides plenty of pockets and walking pole loops for on-the-go organisation, making the Summit the perfect pack to help you push yourself on a mountain hike or climb.

SHILO

30 + 10

SHILO backpack is immensely popular thanks to its versatility. Its welded seams, waterproof material, zippers and a closing cap, make it absolutely water tight. Therefore, it will be a reliable partner for a hike in any weather or it will protect your stuff during your river expedition. Due to its low weight and changeable volume, it is a popular luggage for air-travel. When it is empty and packed into a small volume thanks to simple back-support system and shoulder straps, it easily fits into your suitcase and can serve as a back-up luggage on your trips.

NEVIS
GORE - TEX

NEW

TREKMATES®

Designed for adventures higher up the mountain, our Nevis puts the focus on high performance and functionality. The 3-layer GORE-TEX upper panels provide exceptional winter weather protection, while the abrasion-resistant polyamide stretch lower panels protect against rocks, scuffs and misplaced crampon spikes. The three size fit goes by height as well as shoe size to give a better indication of calf length. The reliable hook and loop closure with snap fastener provide a secure fit, creating an effective protective sleeve around the top of the boot and lower calf, keeping out loose debris as well as the elements.

ICE SPIKES

BLUE ICE

The crampons are suitable for walking or running on a slippery or icy surface in easy terrain (icy snow, dirt road). The reinforced lower frame with steel spikes is attached to the upper plastic frame with steel chains. The upper frame stays flexible even in severe frost. It can be used on common everyday shoes or sports shoes. Not for ice climbing. Packed in a practical cover with a zipper.

POLES

CARBON TREK
TELESCOPIC POLES

The three-piece, light, and strong poles with the longer grips made of EVA foam. The upper piece is made of carbon and the other two of aluminium. All pieces are fixed in a proper position by the Quick Lock system. The longer grips make for an easy grip even when you wear gloves, and the adjustable wrist support straps feel fine in your hands. The set comes with two plates (big and small) and rubber caps for the steel tips. Ideal for walking and alpine ski.

CATALOG NO.	SH00018
CONSTRUCTION	3 Pcs, long foam grip, steel tip, replaceable basket
MATERIAL	Carbon, aluminium 7075
LENGHT	65 – 135 cm
WEIGHT	480 g/pair

EAGLE
FOLDABLE POLES

NEW

The ultra-light aluminium foldable poles with a longer grip. Thanks to the folding system with a steel string, the poles are put together very quickly. The upper moving part with SPEED LOCK clamp adjusts the proper length. The longer foam-made grips and the soft adjustable wrist support straps feel fine in your hands. The set comes with two plates (big and small) and rubber caps for the steel tips.

CATALOG NO.	SH00022
CONSTRUCTION	3 Pcs, long foam grip, steel tip, replaceable basket
MATERIAL	Aluminium 7075
LENGHT	110 – 135 cm
WEIGHT	430 g/pair

FALCON
TELESCOPIC POLES

NEW

The telescopic poles made of high-quality aluminium 7075 offer a soft grip and comfortable wrist support straps. Their length is quickly adjusted by the SPEED LOCK system. The set comes with two plates (big and small) and rubber caps for the steel tips.

CATALOG NO.	SH00021
CONSTRUCTION	3 Pcs, foam grip, steel tip, replaceable basket
MATERIAL	Aluminium 7075
LENGHT	68 – 135 cm
WEIGHT	480 g/pair

CONDOR
TELESCOPIC POLES

NEW

The telescopic poles made of high-quality aluminium 6061 are equipped with a suspension system (can't be switched off) and offer a soft grip and comfortable wrist support straps. The screw system adjusts the length of the poles. The set comes with two plates (big and small) and rubber caps for the steel tips.

CATALOG NO.	SH00020

KUKRI

The Kukri has been the knife of choice by the Gurkhas for many years for a reason its multiple functionality allows the knife to be used as a machete, for cutting, slicing, intricate work and much more. The Kukri is a Nepalese knife with an inwardly curved blade, similar to a machete, used as both a tool and as a weapon in Nepal and some neighbouring countries of South Asia. This knife is truly versatile.

COOKERS

ALPINIST

NEW

MOUNTAINEER

NEW

It is one of the smallest and lightest cookers on the market but it is a very efficient model with a large cooktop. The water even in a bigger pot gets boiled very quickly and there is no danger that the whole set will overturn. It is to be used with disposable propane-butane cartridges with a 7/16" screw. Ideal for hiking and mountaineering. It comes in a practical box which protects it from damage. In our catalogue, the cartridges are available under the codes SN00043 and SN00017.

CATALOG NO.	SN00205
HOTPLATE	Ø140 mm
HEIGHT	80 mm
MATERIAL	Stainless steel, aluminium
OUTPUT POWER	4,5 kW
PACKED	10 x 6 x 6 cm
WEIGHT	110 g

A small, light-weight, foldable, and yet highly efficient hiking cooker which uses disposable propane-butane cartridges with a 7/16" screw. Ideal for hiking and mountaineering. It comes in a practical box which protects it from damage. In our catalogue, the cartridges are available under the codes SN00043 and SN00017.

CATALOG NO.	SN00206
HOTPLATE	Ø140 mm
HEIGHT	90 mm
MATERIAL	Stainless steel, aluminium
OUTPUT POWER	4,2 kW
PACKED	11 x 5 x 5 cm
WEIGHT	100 g

TRAVELLER

NEW

A high-performing gas cooker which uses disposable propane-butane cartridges with a 7/16" screw. This type of cartridge is practically available all over the world. Ideal for hiking, camping, and moto-tourism. The advantage of this kind of cooker is that the cartridges can be removed from the cooker and therefore they don't take up too much space. 185 mm diameter of the cooktop is large enough even for a bigger pot (the diameter of the folded supports is 120 mm). In our catalogue, the cartridges are available under the codes SN00043 and SN00017.

CATALOG NO.	SN00202
HOTPLATE	Ø185 mm
HEIGHT	80 mm
MATERIAL	Steel, brass
OUTPUT POWER	4,0 kW
PACKED	14 x 10 x 6 cm
WEIGHT	280 g

COOKER & GRIL

NEW

Cook, fry, or grill on a single versatile gas cooker. It is an ideal choice mainly for motorized travellers as this cooker takes up little space, weighs even less, and fits into every car. It is also very stable. Thanks to the big burner (the diameter 11cm), the cooker produces a lot of heat which easily makes a meal for the whole family. A large and deep frying pan (39.5 cm) and a grilling plate (33.5cm), both enamelled, provide enough space for a lot of vegetables and meat. It is possible to use the pots up to 45 cm in diameter.

This cooker is also a good choice for grilling on your balcony or a garden patio. Unlike classical grills using charcoal, this cooker doesn't produce any smoke or sparks. No big and complicated clearing and maintenance is needed after grilling.

The package contains the cooker, three legs, a grilling plate (diameter 33.5cm), and a frying pan (diameter 39.5cm). The last two items are enameled.

CATALOG NO.	SN00203
HOTPLATE	Ø300 mm
HEIGHT	42 cm
MATERIAL	Steel, brass
OUTPUT POWER	3,55 kW
PACKED	42,5 x 40 x 19,5 cm
WEIGHT	4 Kg

FASTBOIL BLUE

- We supply archery clubs, specialized shops or individual customers all over Europe.

See the full offer in our specialized catalogue.

FITNESS

Yoga

IN OUR FITNESS COLLECTION, YOGA TAKES UP MORE AND MORE SPACE EVERY YEAR. THIS IS MAINLY RELATED TO ITS CONSTANTLY INCREASING POPULARITY.

YOGA MAT NATURAL RUBBER

Natural rubber yoga mats are the flagship of our yoga mats. We recommend 1 mm thick models to those who are comfortable with hard surface. Ideal for dynamic exercises, not so much for standing in one place for a long time. The microfiber top layer is a bit more slippery than other types of yoga mats. Thanks to the minimalist design, however, you can easily fold the yoga mat into a handbag. It is great for stretching on the grass. You hardly know about it in your backpack and you can use it anytime and anywhere on your trip.

4 mm thickness of material significantly adds to comfort, but also to weight, not everyone wants to carry a 3 kg mat. However, this eliminates the pressure on ankles and other joints during long asanas.

For both types, you can choose from five different designs, whichever suits you best.

YOGA MAT TPE

TPE is a very soft, flexible and pleasant material. But the biggest advantage is the non-slip surface, which helps to eliminate some small mistakes in exercises and asanas. In addition, it can withstand frequent and even rougher use for a long time. Last but not least, it is easy to clean, so its maintenance is easy and comfortable.

TPE yoga mats are the best for those who like to exercise on a comfortable mat very often.

They are available in five different colours and in one and two-layer variants.

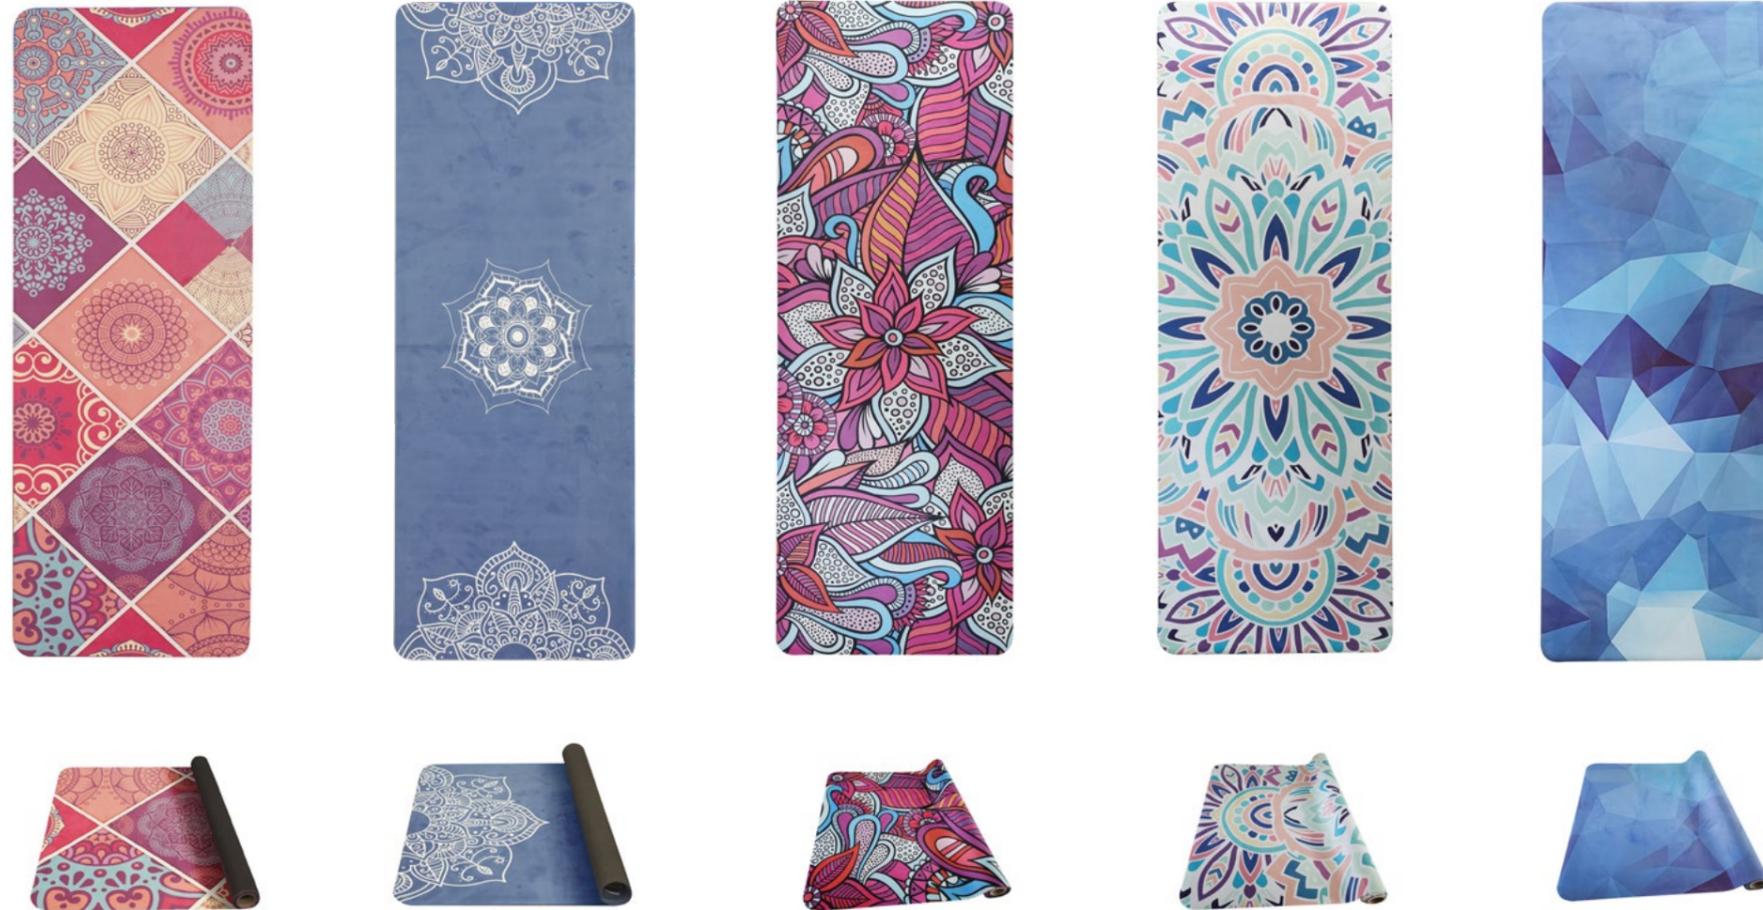

YOGA MAT PVC, PE

Basic models of yoga mats for beginners, who may not yet be sure whether they will be devoted to yoga and whether they will need top equipment. Nevertheless, these models provide good conditions. For beginnings, their non-slip surface is very important. Very low weight is a great bonus, which you will appreciate when traveling or for group lessons. You will find the bag or the carrying strap very handy.

YOGA MAT NATURAL RUBBER

1 MM

NEW

This type of yoga mat has the natural rubber base and the micro-fibre upper layer. It is effective especially for hot yoga or for more dynamic yoga styles. It can be easily folded into your handbag and this feature also makes it ideal for travelling.

RADEK JAROŠ

Since 1998, our company has been extremely honoured to cooperate with Radek Jaroš. There is no need to introduce Radek in detail as he has become a household name in climbing communities. He is our most successful Himalyan climber whose expeditions earned him the Crown of the Himalayas and later the Crown of the World. It means he climbed all 14 eight-thousanders as well as the highest mountains of all continents. Thanks to him, YATE mats made it to the tops of all eight-thousanders. Also other YATE products supported him on his adventures.

HONZA „TRÁVA“ TRÁVNÍČEK & MIRKA „MIRI“ JIRKOVÁ

We are also grateful for cooperation with Tráva and Miri, climbers and travellers. They have been using our equipment for all their activities – rock climbing, slacklining or riding bikes to name just a few. Thanks to their numerous expeditions to the highest mountains of the world, including 5 eight-thousanders, they always shared with us their expert observations and experience with our products, which is an invaluable help for their further development.
